

**Statement from Winter Park Resort
regarding the new development plan for its base area**

Winter Park Resort recently submitted a Preliminary Development Plan (PDP) to the Town of Winter Park for redeveloping its base area, marking an additional early step in the resort's future development process.

Since its founding in 1940, Winter Park Resort has been growing and evolving. More recently, the resort and the Town of Winter Park have been collaborating for years on responsible development and continue to evaluate how best to integrate their long-term plans. As we look to the future, the resort is anticipating how to grow our experience and offerings while also honoring our heritage and the needs of our community, employees, and guests and we look forward to sharing additional details as the process progresses.
